

EUROJUST

Eurojust holds 100th joint action day

The 100th action day that took place on 18 September 2019 marks an **important milestone** for Eurojust.

Action days are one of the judicial tools used by Eurojust to coordinate time-sensitive investigations. **In 2018 alone, Eurojust handled over 6.500 cases.**

Since 2011, Eurojust provides **practical, real-time support** to judicial and law enforcement authorities to execute arrests, searches and seizures **immediately and simultaneously in several countries.** These joint action days are **minutely planned** and **target organised criminal groups** across Europe involved in all forms of violent, serious crime.
